SUSTAINABILITY

At Anurak Lodge, sustainability is guided by the 4C framework: Conservation, Community, Culture and Commerce. This framework is reflected in everything we do, from restoring rainforest and supporting local livelihoods to creating meaningful guest experiences.

REGENERATING THE LANDSCAPE

Once an oil palm plantation, Anurak is gradually being restored into native rainforest. Guests can plant a tree and become part of this ongoing restoration journey.

CIRCULAR FARM EXPERIENCE

Guests harvest fresh ingredients from our organic farm, bring the ingredients to the kitchen, and discover how composting returns nutrients back to the soil.

TOURISM WITH LOCAL IMPACT

Our connection with the local community shapes everything we do. From creating local employment to sourcing from nearby producers and working with experienced local guides, every stay contributes to the local economy.
